- prepare reports concerning the fire services,
- participate in fire inspections,
- takes action as required by SOP's; as well as complies with Fire Department policy
- performs in a professional manner to prevent damage, or unnecessary physical or financial loss to Fire Department equipment and materials;
- Become familiar with COMKAF safety regulations, in particular, the safety regulations pertaining to the Fire Services and operations;
- able to direct subordinates
- drives and operates fire fighting apparatus,
- removes personnel from an area of high risk to an area of relative safety,
- executes fire extinguishing procedures,
- provides Advanced First Aid and CPR to the injured,
- supervises the return of equipment to a state of normal stand-by readiness after every use
- supervises and participates in required fire fighting training activities;
- maintains a physical fitness standard as required by Fire Services policy;
- supervises and participates in Fire Prevention and Life Safety inspections;
- supervises and conducts training for non-fire fighting personnel and various organized groups;
- supervises and conducts fire inspections;
- supervise and/or carry out the inspection, testing and maintenance of all fixed or portable extinguishing or detection systems, fire apparatus, water distribution systems, as well as all hand portable firefighting equipment, life safety equipment and fire fighting vehicles
- maintains a high level of cooperation between peers, subordinates and supervisors;
- demonstrates initiative and problem solving skills
- uses effective time management to complete assignments

Qualifications (if you are European then these can be equivalents)

- Valid Driving License
- NFPA 1001: Fire Fighter
- NFPA1002: Fire Apparatus Driver/Operator or Equivalent
- NFPA 472: HAZMAT Awareness, Operator, Technician or Equivalent
- NFPA 1003: Airport Firefighter/ARFF Driver operator or Equivalent;

- NFPA 1021: Fire Officer I/II or Equivalent
